

Performance Policy for Students

General Notes:

- Performance opportunities are offered to students in Levels 2, 2a, and 3.
- Performance is entirely voluntary.
- If you volunteer for a performance, you agree to the necessary practice and preparation.
- Also, if you volunteer for a performance, you agree to obtain the appropriate costuming.
- **Nisaa reserves the right to make the final decision regarding your eligibility to participate in performances that Nisaa organizes and/or sponsors.**

Group Performances:

- In order to volunteer for a group performance, you must be currently enrolled in Nisaa's group classes. In order to volunteer for a group performance in the spring recital, you will also be required to register for the spring recital preparation class in addition to your regular weekly class.
- If you volunteer for a group performance, you will be expected to attend class regularly and to attend required rehearsals. If you must miss a class, you will be expected to make up the class (generally, by booking a private lesson). If you must miss a required rehearsal, you must notify Nisaa as soon as possible.
- Absence from class without a make-up will affect your eligibility to participate in group performances. Multiple absences from spring recital preparation class, with or without make-ups, will affect your eligibility to participate in a group performance in the spring recital.
- Absence from required rehearsals will affect your eligibility to participate in group performances.

Solo/Self-Directed Performances:

- In order to volunteer for a solo/self-directed performance as part of a performance that Nisaa organizes and/or sponsors, you must be currently enrolled in Nisaa's group classes or regularly attending private lessons with Nisaa.
- You are encouraged to seek out Nisaa's guidance while developing your performance.
- If you volunteer for a solo/self-directed performance as part of a performance that Nisaa organizes and/or sponsors, your performance will be subject to Nisaa's final approval.
